

ROAD EDGE ALUMINIUM

Description:

In situations where design, practicality and extreme durability are required, Road Edge Aluminium provides the versatile and economical solution.

This tough edging accommodates a wide range of substrates and has a vast range of profile heights available. It provides the ultimate solution in landscape edging.

Applications:

- Gravel Pathways
- Paving
- Tarmacadam
- Resin bound gravel
- Concrete
- Safety surfaces
- Curved edges
- Straight edges

Features:

- Heavy duty aluminium alloy construction
- Very durable
- Very resistant in extreme weather conditions
- Flexible, lightweight and strong
- Multiple fixing positions
- Easy to cut
- Easy to install
- Does not rust, rot or crack
- Non toxic, non magnetic
- Non sparking
- Environmentally friendly
- 100% recyclable

ROAD EDGE ALUMINIUM

Specifications:

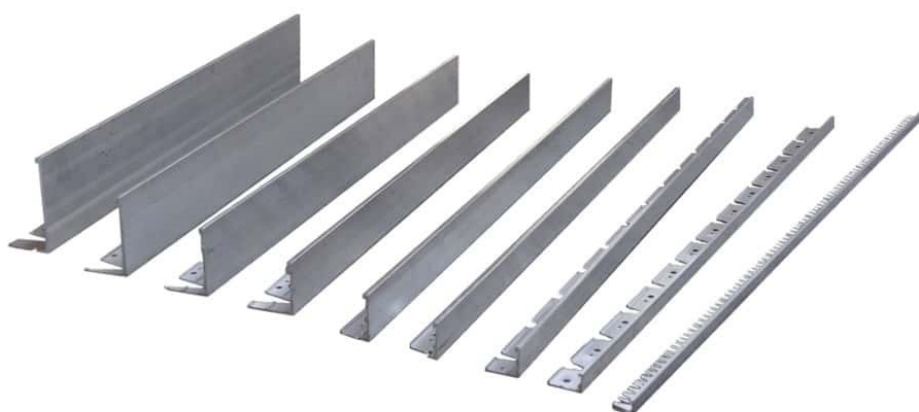

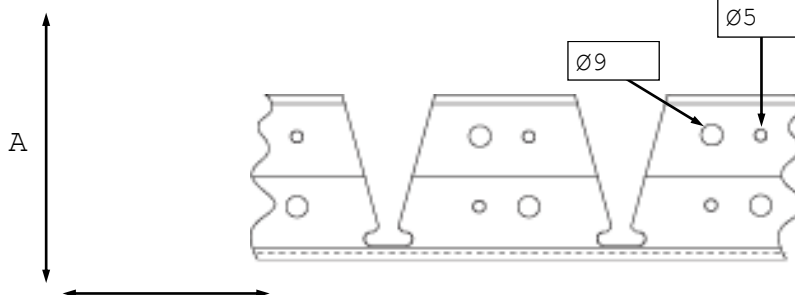

Length	Height A	Height B	Thickness	Weight /Length + stakes	Stakes / Length
2,30 lm	20 mm	45 mm	5.5 mm	1.15 kg	5
2,30 lm	40 mm	45 mm	5.5 mm	1.50 kg	5
2,30 lm	50 mm	45 mm	6 mm	1.65 kg	5
2,30 lm	65 mm	45 mm	6 mm	1.90 kg	5
2,30 lm	75 mm	70 mm	6.5 mm	2.6 kg	5
2,30 lm	100 mm	70 mm	7 mm	3.35 kg	5
2,30 lm	120 mm	70 mm	7 mm	4.20 kg	5
2,30 lm	150 mm	70 mm	8.5 mm	5.80 kg	5

Composition : Aluminium 6060/63 A Fixation by steel stakes of 7.5 mm diameter per 250 mm

Colours:

Natural
