

Bamboo Tree Guard

Product Guide

-Material: Bamboo + 4 coated Iron wires
Packaging: 4 per pack (in 70cm or 45cm)

Description:

Bamboo is a matting that protects the trunk against rodents and UV rays. Quick and easy to install, the bamboo matting protects against the overheating and bruising of bark in young plantings.

Bamboo 45 :

Tree trunk protection made from 3cm wide Bamboo slats measuring 2m x 45cm. Attached with four coated iron wires. Bamboo 45 or equivalent. In order to maintain the passage of air around the trunk a foam casing, diameter 24mm should be installed between the trunk and the Bamboo protection matting.

Bamboo 70 :

Tree trunk protection made from 3cm wide Bamboo slats measuring 2m x 70cm. Attached with four coated iron wires. Bamboo 70 or equivalent. In order to maintain the passage of air around the trunk a foam casing, diameter 24mm should be installed between the trunk and the Bamboo protection matting.

Bamboo Tree Guard Foam Spacer
