

Dall'O Gravel eXcel

Gravel stabilisation grid specifically designed for technical, heavy-duty and intensive uses.

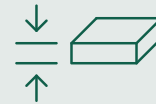

Grids delivered
in 1m x 1m
**140 grids
per pallet**

No clogging
by fine
particules

**Male-female
clip system**

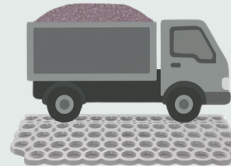

Vaccum
resistance:
140 tonnes

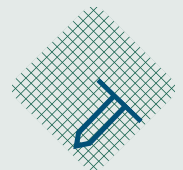

Designed for **high-traffic areas** and **frequent heavy vehicles use**
(bus lanes, fire truck access...)

Designed for **high slope coefficients**

The loading truck can drive over it during filling

Fixable to the ground with nails

Quick installation
± 40 m² / hour / operative

No waste
reusable grids thanks to the clip system

Optimised
transport and storage
(140 m²/pallet)

Reduces gravel consumption by approximately **3 tonnes per 100m²**
