

Stylplast Edging

Product Guide

LANDSCAPE DEPOT

Stylplast Edging

Product Guide

LANDSCAPE DEPOT

Description:

This stylish contemporary edging is made from recycled grey plastic. It is perfect for delineating lawns from flower beds or for creating garden pathways. It is easy to install, easy to cut, yet strong and highly flexible. Resistant to garden strimmers and to harsh weather.

It is designed on the same profile as its big sister AluStyle. The use of recycled PVC gives it unparalleled flexibility, without shape memory. Like the AluStyle, the StylPlast is equipped with a slide allowing the galvanised pegs to be installed along the entire length of the profile.

Applications:

- Gravel Pathways
- Soft Landscaping
- Lawns and Borders
- Straight Edges
- Curved Edges

Features:

- Does not rust, rot, or crack
- Frost resistant
- Permanent installation
- Light and flexible
- Easy to install

Features:

- Environmentally friendly
- 100% recyclable
- Variable fixing Points
- Non toxic
- Easy to cut

Advantages:

- Resistant
- Flexible
- Ideal for curved landscaping
- Quick and easy to install
- Sliding stakes
- 100 % recycled
- Aesthetical
