BorderStyle Steel Edging

Product Guide

LANDSCAPE DEPOT

Description:

BorderStyle Steel edging is our thickest and strongest garden edge, providing a more robust and harder wearing solution for garden and landscaping projects. Made from 3mm thick Galvanized steel, (DX51DZ275, 16 to 22µ) offering increased strength and durability, yet still easy to bend and shape to suit multiple garden and landscape designs.

Applications:

- Gravel Pathways
- Soft Landscaping
- Lawns and Borders
- Paving
- Curved edges

Features:

- 2 colour options, brown & black
- 2 finishes Corten & galvanised
- Easy installation
- Long lasting
- 3 fixings included
- Available in 2 heights
